CITY AND COUNTY OFFICIAL PAPER.

Fresh Ranch Butter from the ranch of J H White at Wolcott's Cash Store. 5.7tf

is third in size of population, second in size of acreage and first in size of importance-politically.

THE census in 1880 gave Tombstone a population of 450 souls; in 1890 over 1800 population; 450 goes into 1800 four times. All'same Los Angeles.

THE silver bill with the president's signature attached should make a Restaurant signature attached should make a every mining camp on the Pacific coast. The prospect of its final enactment has run silver to 1.07, and the realization of it should, according to the best prognosticators, double the latter figure.

Gov. Wolfley has emphatically denied having instigated the recent court martial in Tueson, but one denial I can assure all of my friends and the wont suffice in Arizona, where a man is supposed to spend all of his time and postage samps in sending out denials. He demes it through the columns of the Star, which paper made the first charge, and now the Herald and Citizen and Gazette and a whole lot of little uns want him to deay it again through their columns. If he doesn't deny it through the PROSPECros we'll "do him up Brown."

THERE seems to be no prospect of any immediate boring of the artesian well on the university grounds in this Quiet Neighborhood! territory. Bids for the work were opened, but no contract was let. With the amount of money on hand the board of regents can not hope to do much, but there is a strong probability of a sufficient amount being appropriated if congress would come to the rescue to go 2500 feet, where water is expected, and not at any shallower depth. The money being lavielity expended in the states of Wyoming, Idaho and Montana in developing the water supply of their respective commonwealths was donated by the general government while they were yet territories. With the proper representations to the agricultural department Arizona would profit by turning some of this money to her doors while the iron is but.
